Dr. Makram Mehany
The Founder

GLOBAL PHARMACEUTICAL GROUP

Global Pharmaceutical Group is a group of companies specialized in different types of activities in the pharmaceuticals field including manufacturing, promotion, importation and distribution activities in Egypt. The group is working on an integrated style of business relation with completely independent management to provide the end consumer, the patients, the best quality of products and services. The group activities started in 1997, with Makram Mehany Pharma (MMP), scientific office for sales and marketing, established and grown-up to add importation, distribution activities and finally pharmaceuticals production in Egypt. The manufacturing sites, located in 6th of October City, Giza, Egypt, are operating with the GMP standards of pharmaceuticals production.

GLOBAL NAPI PHARMACEUTICALS

GLOBAL NAPI PHARMACEUTICALS (GNP) is established in 1994 dealing with pharmaceutical formulations production in Egypt. In addition to production of GNP products, license agreements were established with MSD, Sanofi, Elerte, Novartis and Stada.

GNP is awarded ISO 9001 for quality, ISO 14001 for environment and ISO 17025 for quality lab accreditation certificates.

GNP is inspected and has products registered and marketed in Yemen, Sudan, Tanzania, Uganda, Kenya and Eastern Europe (CIS). The site is also inspected by Romania for (PICs).

GLOBAL PHARMACEUTICAL INDUSTRIES

Global Pharmaceutical Industries (GPI) is established, designated for sterile injectable products; in the form of vials and ampoules in solution and lyophilized products. The products were in the market since November 2011. Also Pfizer, SUN, AUG and others are in contract manufacturing agreements with GPI for production of their injectable products.

GPI is inspected by Romania for (PICs) as well as Sudan and Yemen Health Authorities.

GLOBAL ADVANCED PHARMACEUTICALS

Global Advanced Pharmaceuticals (GAP) is a mega project in Egypt, composed of 6 modules of production for different pharmaceutical forms.

Solid dosage forms and ophthalmic preparations are the first two modules ready for production. Production for marketing will be in Q4 2018.
